**Van Wyck Items.**

We have not written any for the paper in several weeks having surrendered our space to the fertile pen of our young friend, Billie Dolittle. Madam rumor has it that the Ledger's correspondent has run him off the field and is now strutting around with banners floating in the breezes boasting of his victory to our young knight of the quill. We would have this to say: We had more faith in your gallantry than to fly before the pickets that it is very uncharitable in him to boast in like manner, even admitting that he had won such a victory.

We have had magnificent rains the past week and the crop prospects never looked finer, both corn and cotton, and our people are now resting on their oars until harvest time.

We have never before in the history of our community witnessed such a spirit of enterprise among our citizens. There is hardly a home that has come to our notice where there is not some improvement going on, and our little hamlet, Van Wyck, is on a real boom. Messrs. Yoder & Griffin are enlarging their store room and painting their house, while Massey Brothers are building several new cottages for rent. Mr. J. A. Hyatt will soon start to build a dwelling there, while Messrs. Jim Smith and M. M. Tillman are speaking of building there in the near future.

**PERSONAL.**

"Optimus" the Ledger's correspondent here, together with his family, is ruminating among the blue hills of N. C., and will be gone two weeks. They will take in several of the most noted summer resorts, including Biltmore and Vanderbilt's palatial residence.

Miss Sadie McCardell will return home this week, after a visit of several weeks at the guest of the Misses Nisbet.

Mrs. R. H. Massey, accompanied by Master John Tillman, visited her parents in Chester county the past week.

Mr. Dick Rives was in town one day the past week.

The aggregate of pensions for this County in both classes, B and C, is \$3,345.30. The money for the County Boards has not yet been received by Clerk of Court, W. S. L. Porter, who is busy paying out the pension money as fast as the parties call for it.

Is there any danger of the gold bug Democrats subverting the Democratic party and turning it over to the service of the mother country? Not at all. The only thing they can do is to slough themselves off from the great party of progress and assist its healthy growth.

**NEWS FROM NEW CUT.**

**Farms, Farmers, School Houses and Politics.**

EDITOR ENTERPRISE:—I will give you a few items from this corner of the moral vineyard. It is indeed a corner—the north western section of Beaufort Township.

The farming lands of our section are fair, and we have some very thrifty farmers, some of whom are making farming pay, Mr. H. M. Parks rather taking the lead.

Three weeks ago crop prospects were the finest I ever saw, but they have been irreparably damaged by the recent drought. There will not be over two-thirds of a crop of cotton made in this section or any other section that I have been in. It is only here and there that we find a good patch of cotton.

It is hoped by at least a majority of the patrons of Mt. Verde school that it will be moved to a more central location. It now stands in about three quarters of a mile from the N. C. line and nearly within sight of the district line on the east. It is over three miles north of the southern line and nearly four miles east of the western line. Thus you see the children along the western and southern section of the school district will have to walk three miles or more to reach the school house or else stay at home which, I am sorry to say, a great many are doing.

Public school houses should be located as near as possible to the center of the District. Though some think the school house should be located convenient to their children or some of their pet neighbors, regardless of the convenience of others and in many instances the trustees are misled by such men and the school house goes up in the wrong place as ours did.

If anyone has any thing to say against what I have written let him say it and I will tell something more.

The people of this section are for Evans. They don't like McLaurin's tariff views.

Dr. Strait will lose no votes here for criticising McLaurin's tariff views. I doubt very much that McLaurin is as popular in this county as some of the newspaper men would have him to be.

NOVUS HOMO.  
 New Cut, S. C., Aug. 19, 1893.

Why do the goldite papers want to make the tariff a big question? So that they can get behind it and do their stealing under cover.
